## ITALY ATTEMPTING TO AVOID A CLASH WITH YUGOSLAVIA

Fear Such Might Provoke New European Conflagration

MINIMIZE THE CLASHES

Mussolini Realizes Explosive Possibilities of The Situation

By Guglielmo Emanuel  
(I. N. S. Staff Correspondent)

ROME, Oct. 12.—(INS)—Italy was bending over backwards today in a determined effort to avoid a clash with Yugoslavia, which might well provoke a new European conflagration.

Provocation would have to be enormous before Premier Mussolini, now the involuntary custodian of European peace, would even admit it existed, his subordinates hinted.

Rome practically closed its eyes to yesterday's anti-Italian activities in Croatia. Officials minimized the incidents, and they were not reported in the Italian press, under orders from the government.

"The report that a mob manhandled the Italian Consul at Ljubljana is much exaggerated," a high Fascist official, who is important enough to act as the Duce's spokesman, but who cannot be named because of strict party rules, told International News Service. "A mob did surround and threaten a consulate clerk in the street, but the police performed their duty with great efficiency and saved him before he had been harmed."

"Any other anti-Italian manifestations there may have been we are convinced were also promptly handled by the police."

"Nothing has happened of any political or international significance, and we are confident that nothing will. The Italian government is taking no action in regard to yesterday's incidents, because no steps are called for."

This expressed the attitude of Mussolini, who is intensely desirous of maintaining peace, and, if humanly possible, attain the late French Foreign Minister Barthou's dream of friendly relations for all countries encircling Germany.

Mussolini has given ample evidence that he realizes the explosive possibilities of the situation growing out of the Marseilles assassinations, and he has likewise shown that he is going to do everything possible to prevent that explosion.

When Chancellor Dollfus of Austria was assassinated, the Duce proved that he was not afraid to take drastic action of a war-like nature if he believed that the situation demanded it.

At present, however, he is so convinced that the moment is most inopportune for sabre-rattling that he is even ready to humble his pride and ignore the anti-Italian demonstrations as long as it is possible for Italy to do that and still retain her national self-respect.

## MORRISVILLE STARTS WATER MAIN EXTENSION

Forty Men Begin Work To Extend Pipes Into Chedester Manor

A 2900-FOOT EXTENSION

MORRISVILLE, Oct. 12.—Morrisville's first LWD project got under way yesterday when approximately forty unemployed reported for work on the installation of over 2,900 feet of water mains throughout the borough.

Chedester Manor, where over 1,700 feet of pipe will be laid, will receive its first opportunity for borough water supply. For many years the residents of that section have appeared before Common Council to urge the laying of water mains and the repairing of streets.

The work began yesterday on Cleveland avenue, and will continue on Penn street, and Osborne avenue. These sections were completely without water last year during the winter zero weather due to the water pipes laying too close to the surface. Many of the residents were forced to carry their water in buckets when the pipes became frozen and burst.

With the political campaign "warming up," Morrisville's Republicans are planning a drive to put over the greatest majority for their party ever polled here. The campaign has taken on a new interest for local party workers since Mayor Thomas B. Stockham has been nominated as a candidate for the State Legislature.

Plans for a big mass meeting to be held here Friday night, November 2nd, are under way and it is expected that the county candidates and other speakers will address the gathering. Music and entertainment are being arranged for to make the event one of the best in recent years.

Members of the vigilance committees, committeemen and committeewomen, met a few nights ago to map out a campaign for the next month. Several committees were appointed, including Joseph Bucknum, chairman of the committee on speakers, William H. Howell, chairman of the committee on entertainment, with Watson J. Simons appointed as chairman of the committee on finance. Several other members will assist Simons. They are: Councilman Elwood Kohl and Paul Nichols, Borough Engineer Harry H. Lee, Jr., and Charles C. Habel. Martin C. Wright has been appointed to take charge of publicity.

## Why Your Food Bill Is GOING-UP

Challenge Any New-Dealer To Retute These Facts!

The Administration at Washington has determined that you shall pay a whole lot more for your food and clothing.

More than that, it has made very certain that you cannot escape paying greatly increased prices for those necessities.

How? To the Administration this has been a very simple matter. **CREATE AN ARTIFICIAL SCARCITY OF THE FOOD AND CLOTHING WHICH YOU MUST BUY!**

To create this artificial scarcity of food and clothing, the Administration at Washington—and these are its own figures!—will hand out a total of a **BILLION DOLLARS FOR THE DESTRUCTION OF FOODS AND COTTON, AND TO CUT DOWN THE FUTURE PRODUCTION OF THOSE NECESSITIES.**

That's a **THOUSAND MILLIONS OF DOLLARS!** And it goes chiefly to the cotton-growers of the South and the farmers of the Western States.

**AND IT'S FOR DESTRUCTION!** Where is the Administration going to get this **THOUSAND MILLIONS OF DOLLARS?**

Why, from the very people who have to pay the higher prices for which the **THOUSAND MILLION OF DOLLARS** is being given away!

The Administration has imposed what it calls a **Processing Tax**. This Administration is strong for new names for old things.

This so-called **Processing Tax** is nothing more nor less than a **RETAIL SALES TAX—A CONSUMER TAX—UPON FOOD AND CLOTHING.**

The tax is collected from those who process food and clothing, **AND THEN IS ADDED INTO THE PRICE.**

More important still, the Administration has determined that **THIS TAX MUST BE HIGH ENOUGH TO PRODUCE THE EXACT AMOUNT THAT IS BEING HANDED OUT TO CREATE SCARCITY**—and by its own figures this amount is **ONE THOUSAND MILLIONS OF DOLLARS!**

In other words—**YOU ARE NOT ONLY GOING TO PAY YOUR SHARE OF THE GREATLY INCREASED PRICES OF FOOD AND CLOTHING RESULTING FROM A GOVERNMENT-CREATED SCARCITY; YOU ALSO WILL PAY YOUR SHARE OF THE THOUSAND MILLIONS OF DOLLARS WHICH THIS ADMINISTRATION IS GIVING AWAY IN ORDER TO MAKE THESE NECESSITIES SCARCE AND THEREFORE HIGH-PRICED.**

And bear in mind that you are not saddled with this burden in order that the Government may buy up surplus, and thus reduce the costs of **RELIEF.** It is for **OUTRIGHT DESTRUCTION**, in order to **CREATE SCARCITY**, which in turn will **BOOST PRICES.**

And this is foisted upon us when millions of our people are on public relief, and other millions are earning scarcely enough to make both ends meet.

**It is the most disgraceful, wasteful, inhuman program ever adopted by any Government, and is without parallel in American history.**

No previous Administration in this country ever dreamed of giving away a **THOUSAND MILLIONS OF DOLLARS** in order to **CREATE A SCARCITY OF FOOD AND CLOTHING.**

No previous Administration in this country ever thought of imposing a **SALES TAX OF A THOUSAND MILLIONS OF DOLLARS ON FOOD AND CLOTHING** chiefly to be borne by the working people.

But **THIS ADMINISTRATION ADMITS** that by next Spring such increases as these may be expected in food prices:

**Ten cents more for a pound of butter. Ten cents more for a dozen eggs. Eleven cents more for a pound of round steak. Eleven cents more for a pound of leg of lamb. Bread up 12 per cent. Canned corn up 30 per cent. Potatoes up more than 50 per cent. And so on, all along the line.**

**Likewise with clothing.** These are not increases by which Pennsylvania farmers will profit. Their gain will be little, if they do not suffer actual loss. First, because the bonuses go almost entirely to the farmers of the South and West. Second, because decreased buying will probably offset all profit from higher prices. Third, because the farmers of Pennsylvania have to pay their share of the bill.

Government figures show **26,000,000 families** not on relief in the **United States.** They are the families that have got to pay this colossal, disgraceful, inhuman tax on food and clothing. Of these 26,000,000 families not on relief, about 2,000,000, or 1/13th, are in Pennsylvania.

**SEVENTY-SEVEN MILLION DOLLARS IS THE LOAD ON THE SELF-SUPPORTING FAMILIES OF THIS STATE.** But that is the tax alone.

**ADD TO THAT THE INCREASE IN PRICES RESULTING FROM THE GOVERNMENT-CREATED SCARCITY WHICH THIS TAX IS SPENT TO CREATE, AND THE COST UPON THE SELF-SUPPORTING FAMILIES OF THIS STATE WILL BE NOT LESS THAN ONE HUNDRED MILLIONS OF DOLLARS!**

That's our contribution to a **SALES TAX ON FOOD AND CLOTHING—A SALES TAX WHICH BEARS UPON LABOR MORE HEAVILY THAN UPON ANYBODY ELSE—THE PROCEEDS OF WHICH ARE HANDED OUT TO A SPECIAL GROUP OF PEOPLE FOR NOT PRODUCING!**

Says the Administration at Washington: **Escape This Sales Tax if you can!** Says Mr. Joseph F. Guffey, Democratic candidate for the U. S. Senate: **I approve all policies adopted by this Administration, and if elected I will support anything it proposes.**

Says Mr. George H. Earl the Third, Democratic candidate for Governor: **I want the policies of this Administration adopted as a part of the Government of Pennsylvania.**

But you are the one who is going to pay. **WHAT DO YOU THINK?** And the little lady at home—**WHAT DOES SHE THINK?**

## RECONCILIATION BETWEEN YOUNG REPUBLICANS CAROL AND HELEN SEEN TO HAVE BIG RALLY

Ghost of King Alexander May Accomplish What Many Attempted

NEW LIFE TO COURT REFRESHMENTS SERVED

By Alexander Luncon  
(I. N. S. Staff Correspondent)  
(Copyright 1934 by I. N. S.)

BUCHAREST, Roumania, Oct. 12.—King Alexander's ghost today was expected to accomplish what Roumania's astute Queen Mother Marie, shrewd politician, and all weighty outside influences have been unable to achieve throughout the years—that is, finally and definitely to tear King Carol away from his red-haired Mme. Lupescu.

The murder of his brother-in-law, it was confidently predicted, will rapidly reconcile Carol and Princess Helen, and bring new life into the Roumanian Court.

The shock of Alexander's assassination, a reported growing mutual friendliness of Carol and Helen to come together again and the practical retirement of Mme. Lupescu from Court life, are potent features that will bring about the reconciliation, those close to the Royal palace believe.

It was well known in Court circles that Alexander repeatedly warned Carol to iron out his family quarrel.

## THE GREATEST DISCOVERER

October 12, date of the discovery of America by Christopher Columbus, is generally celebrated now. We can look back at him as a kind of father of everything that started on the American continent. Where would we be today if he had not performed his immortal work of exploration? Would the American continent have been discovered? Would this superb land of ours, with its teeming cities and smiling villages and magnificent scientific achievement, be still possessed by the savages?

No one can tell. At the time Columbus performed his great deed, few if any people of the old world had dreamed that any such continent existed. The narrow confines of Europe, with the portions of Africa and Asia then known, constituted the entire world to them. They conceived of our globe as a flat surface, and they never asked what was beyond those mysterious horizons into which they never dared venture. Centuries might have passed without the discovery of America, if Columbus had not lived, or if he had not dreamed his mighty dream.

What would the world be today, if America had not been discovered, or if its discovery had been postponed for many years or centuries? Certainly modern democracy and the rule of the people would not exist. Those ideas were the direct result of the free life that developed on our continent.

Without the impulse which America gave, the world would have continued to live under antiquated and outworn forms of government, in which little attention was paid to human welfare. About all the blessings of modern life, its freedom and its scientific opportunity, can be attributed to the American spirit, the beginning of which occurred when Columbus first set his foot on the unknown land of our soil.

Illinois is planning a system of bandit-proof highways. Maybe they will work better than fireproof buildings and foolproof automobiles.

Mussolini's son has passed his flying test. His biggest one is likely to come when he tries to step into the dictatorial shoes of his dad.

The Insull trial is expected to require four months. Justice seems to be about the only thing in the United States that is slow.

The first sign of age is to begin a carking continued story and forget to buy the next number.

From the number of lawyers engaged in the Insull trial, somebody must have some money.

## TWILIGHT CHAMPS TO BE HONORED AT A BANQUET

Members of the Edgely Braves baseball team will be honored tomorrow night at a banquet and dance to be held in Dick's hall. The Braves won the championship of the Bristol Twilight League but recently lost in an effort to be crowned the Lower Bucks County champions.

The fans which backed the Braves to the limit during the pennant rush of the Braves and cheered as the team amassed a total of nineteen straight league victories are expected to crowd the hall and make the affair a gala one.

The fans have a right to be proud of their team as it set a new Bristol Twilight League record by going through both halves without a defeat. Besides this, the team captured over thirty-five victories during the entire season. Manager Fred Hibbs, celebrating his first season as a pilot, will also be honored as Hibbs won the batting championship of the Twilight League and is the only player to have this honor for two seasons.

Many interested Bristol sportsmen have been invited to the affair which will begin at 6:30 o'clock.

### GUARD ITALIAN CONSULATE

Zagreb, Oct. 12—Heavy guards were thrown about the Italian Consulate here and in other Yugoslavian cities today as part of the government's intensive drive to prevent serious complications with Italy. With the wave of anti-Italian feeling which followed

the assassination of King Alexander, gravely threatening peace, newspapers were rigorously censored and all anti-Italian articles strictly prohibited. Meanwhile, reports circulated here that Petrus Kalemien, assassin of King Alexander was actually an Albanian Moslem and a member of a secret Albanian revolutionary organization known as Kosono. This organization has its headquarters in Vienna and is alleged to have Italian affiliation. Its aim is said to be union of Serbia and Dalmatia with Albania.

It was also reported the two alleged associates of Kalemien arrested on the French frontier, are either Albanians or Italians, connected with the same organization.

One thing seems clear and that is even should a connection between the assassin in Austria or Italy be established, the Yugoslavian government would do everything within its power to prevent provocative action against Italy.

No one denied however that the situation appeared threatening with only an initial spark needed to throw Europe into a panic.
